

# WHAT IS MCP?

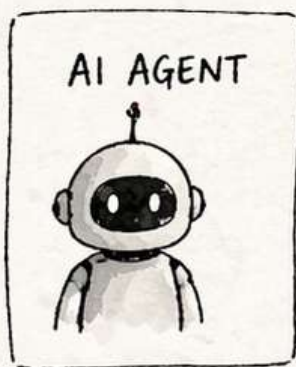

THE STANDARD PROTOCOL THAT LETS AI AGENTS TALK TO REAL APPS.

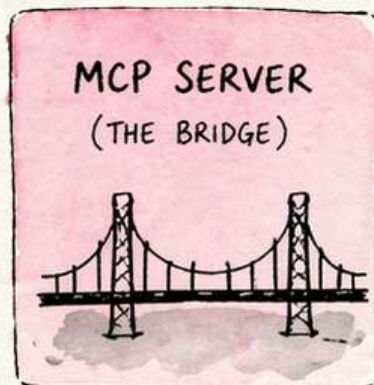

## IN SIMPLE WORDS:

MCP (Model Context Protocol) is an open standard that acts as a bridge between AI agents and different tools and apps.

## HOW IT WORKS

asks for something

understands the request and connects

## TOOLS / APPS

gets things done in the real world

## WHY IT MATTERS

- One agent can work with many apps.
- No need for custom integration for every new tool.
- It's the USB-C for AI agents and apps.

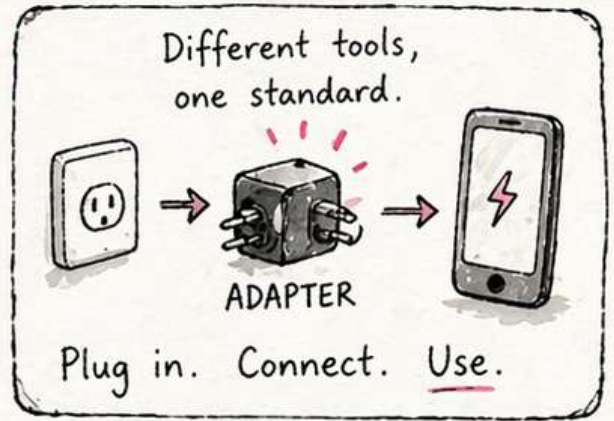

## TAKEAWAY

MCP makes AI agents more powerful, useful and connected to the real world.

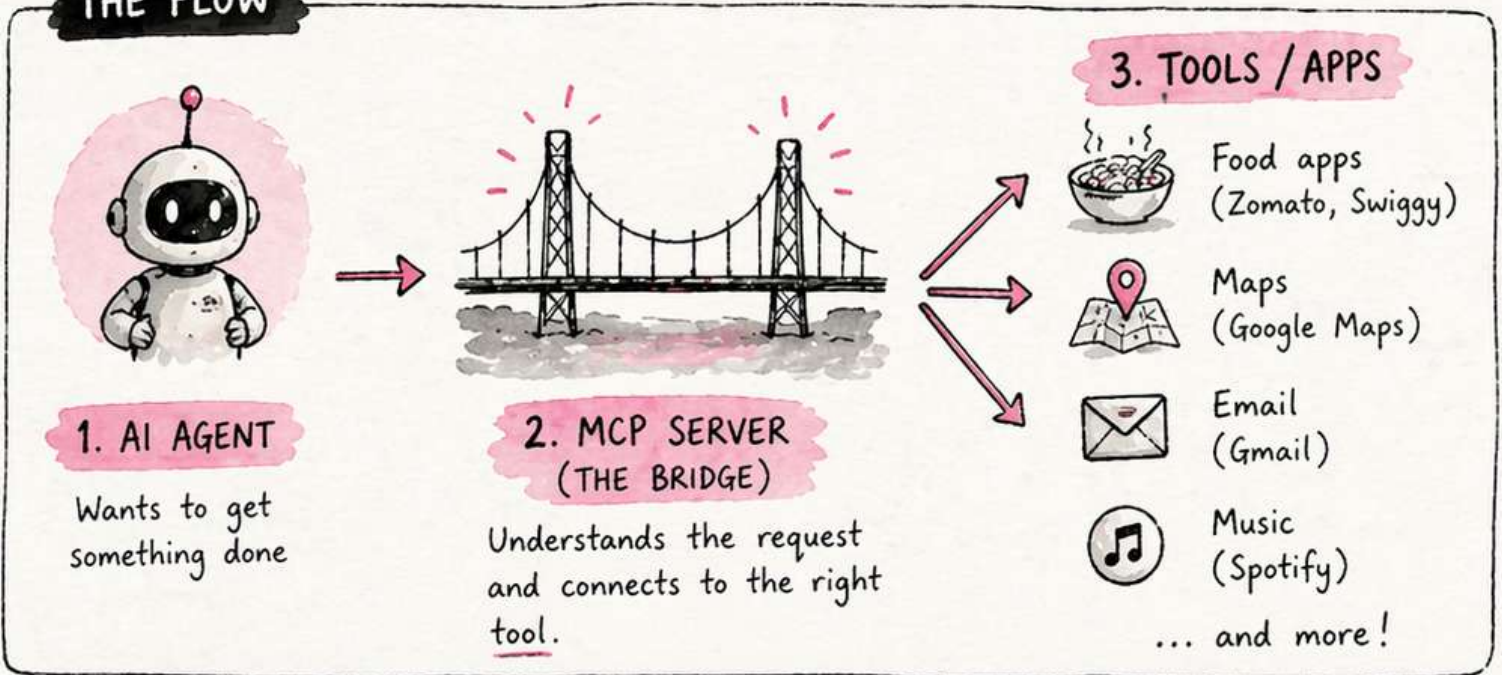

# HOW MCP WORKS

Think of MCP as a universal adapter for AI agents.

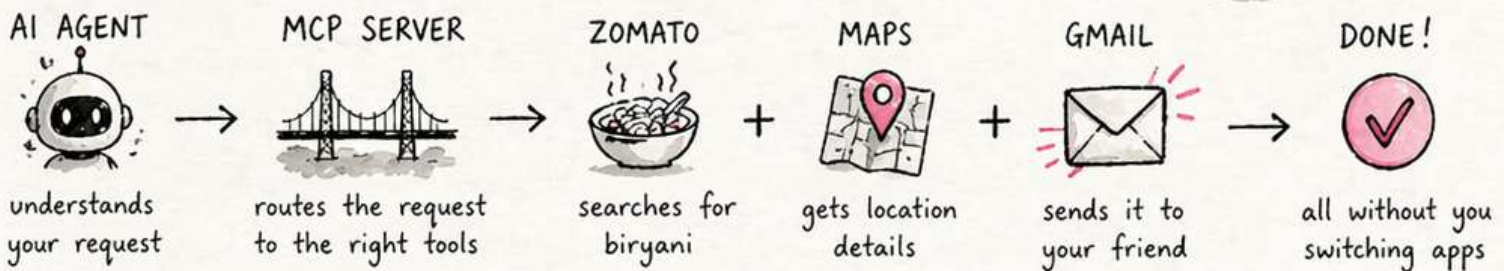

## THE FLOW

## EXAMPLE

You ask your AI agent: Find a biryani nearby and send it to my friend.

## TAKEAWAY

MCP lets AI agents use many tools through one simple standard.  
One request. Many tools. Real results. ❤️

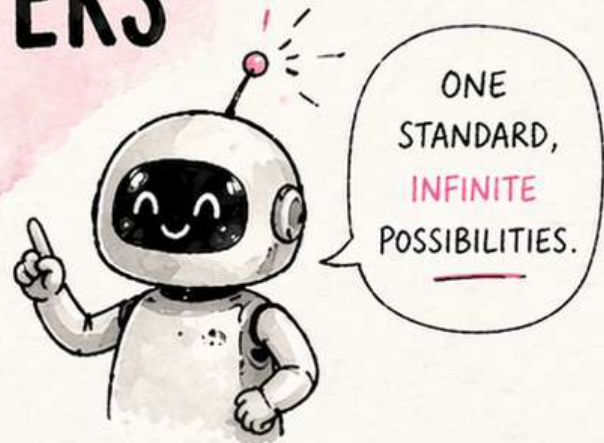

## REMEMBER:

MCP is not a tool. It's the connection that makes tools work together. ☆

Next: What can MCP do in the real world?

# WHY MCP MATTERS (AND WHAT'S NEXT)

MCP is a small idea with big impact.  
It makes AI agents more powerful,  
safe and useful in the real world.

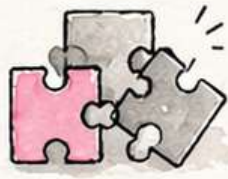

## THE IMPACT

### 1. TRUST & SAFETY

Standard connections  
reduce risks and  
make actions  
traceable.

### 2. COMPATIBILITY

Any agent can work  
with any tool that  
supports MCP.

### 3. SCALABILITY

More tools.  
Smarter agents.  
Greater impact.

### 4. REAL-WORLD VALUE

From small tasks to  
complex workflows —  
MCP connects it all.

## WHAT'S NEXT?

### Today:

A growing  
standard.

### More tools

More apps will  
support MCP.

### Smarter agents

Agents will plan,  
decide and act  
better with more  
connected tools.

### More value for everyone

Businesses, creators  
and everyday users  
will get things done  
faster and easier.

### The future:

AI agents that  
truly help us  
in our daily  
lives.

## REMEMBER

MCP isn't just for developers.  
It's for anyone who wants AI to be  
useful, reliable and connected to the  
real world. 

## LET'S BUILD THE FUTURE TOGETHER

New tools. New ideas. New solutions.  
All connected with MCP.

**ONE STANDARD.**  
**ENDLESS POSSIBILITIES.**
